FORKLIFT TRUCK WITH DIESEL DRIVE

L-SERIES

THE RELIABLE CLARK FORKLIFT FOR EVERYDAY OPERATIONS

The L-Series is a powerful yet affordable truck series. CLARK has chosen reliable components that make this truck series productive and easy to service at the same time. The L series can be used for logistics, distribution and manufacturing.

With excellent all-around visibility, a predictable behavior during the operation and the class leading CLARK masts, the L-Series is made for cost effective operations over a long service life.

**RELIABLE.
PREDICTABLE.
COST EFFECTIVE.**

Technical data for: L-Series

Nominal capacity:
2000–3300 kg

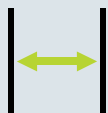

Lifting height:
Max. 7315 mm

Driving speed:
Max. 19,1 km/h

Diesel engine output:
36,8 kW
(Optional 44.3 kW)

Aisle width:
from 4145 mm

FORKLIFT TRUCK WITH DIESEL DRIVE

L-SERIES

FEATURES

1

GOOD MAST VISIBILITY

Proven nested upright rails provide a robust construction and narrow 'column' to maximize visibility.

2

LED LIGHTS

LED front lights optimise illuminated field of vision for safer operation.

3

FAST LIFT AND LOWERING SPEEDS

Improve efficiency in daily operations to get more out of each shift. The CLARK hydraulic damping system reduces shock during lowering.

4

SMALL STEERING WHEEL

Reduces operator fatigue, makes steering easy and maximizes space in driver's compartment.

5

LARGE LANDING STEP WITH STEEL GRIP

The driver accesses the ergonomically designed compartment via a large, low, perforated nonslip metal step.

6

EXCELLENT HEADCLEARANCE

Spacious operators compartment with good headroom for added comfort and safety.

7

DRIVER SEAT

The L-Series offers ergonomic seats that are adjustable to the weight of the driver and also adjustable in seating position.

8

EASY TO VIEW DASHBOARD

Thanks to the intuitive dashboard, the L-Series is easy to operate and the operator always has an overview of the truck's performance. All displays are easy to read even in outdoor sunlight.

9

PROVEN ENGINE

Our industrial diesel engine delivers power efficiently, is easy to service, and mounted on rubber blocks to reduce engine vibrations during operation.

10

PLENTY OF LEGROOM

Operators can comfortably enter and exit the forklift. Even taller operators with safety shoes have enough legroom.

11

MODERN DESIGN

The modern design without sharp edges in our safety color 'CLARK Hot Yellow Green' puts your company in the best light.

12

SAFETY PLUS

Optional orange seat belts are available. This makes it possible to quickly determine whether the seat belt is being used properly by the operator.

13

EASY ACCESS FUSE BOX

Easy maintenance thanks to the best access to the fuse box and other important components.

14

QUICK PROCUREMENT OF SPARE PARTS

CLARK L-Series components are easy to replace. This increases serviceability and reduces downtime for maintenance. Spare parts can be ordered through CLARK's industry-leading spare parts tool, PARTS PRO PLUS.

15

Powerful Yanmar engine

The L-Series can be equipped with the reliable Yanmar 4TNE98 engine, which is a perfect choice for this series. The Yanmar 4TNE98 is at the top end of the performance class, offering power and reliability. The temperature of the engine is monitored, and if temperature limits are exceeded, the engine is automatically shut down.

FORKLIFT TRUCK WITH DIESEL DRIVE

L-SERIES

BENEFITS

Easy Maintenance

The diesel engine used on the L-Series offers a proven engine technology that makes the L-Series easy to service.

- No computer diagnostic systems required.
- An absence of electronic functionality improves reliability.
- Easily sourced components make replacing parts easy and improves serviceability.

Predictable Operation

- The L-Series is designed for predictable operation with easy reach cowl mounted hand brake and levers.
- With its front and centre location an operator can check their dashboard without distracting from safe operation.
- The ergonomic workplace offers the driver an intuitive operating concept with an excellent view of both load and forks. The optimal seat position gives the driver a good all-round view. This increases safety during load handling.

Cost Effective Solution

The CLARK L-Series is affordable and offers benefits that provide cost advantages over the life of the truck.

- Proven engine, parts are cost-effective and are available worldwide.

Other key components are also available in our extensive range of forklift parts and can be sourced quickly.

- Computerized diagnostic tools are not required. This reduces the cost of maintaining the forklift.

Ergonomics are Optimised

- The L-series offers drivers of different heights sufficient space and thus maximum comfort.
- Large operator seat and footwell so that the operator can easily enter and exit the forklift.
- Suspension seat for a smoother vehicle ride (optional).
- Well positioned cowl mounted hand brake and a small steering wheel reduce operator effort.

No Compromise on Safety

Every CLARK forklift is engineered with safety in mind. This is continued with the L-Series.

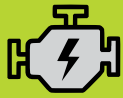

- Low cowl position for better visibility through the mast.
- LED front lights for optimum illuminated field of vision.
- Distraction free dashboard provides simple reading at a glance.
- Large step for a safe access to the forklift.
- Low centre of gravity for stability.

Years of experience in the production of key components – the CLARK mast technology

With over 100 years of forklift design and manufacturing experience, CLARK knows what is most important in a forklift truck. The mast is one of the most important components of your forklift.

- The L-Series utilises the same proven CLARK mast technology used across the CLARK range.
- Designed to be stronger than conventional flat-faced rails.
- Better resistance of side-to-side deflection with strong rail sections.
- Promotes longer life and improved stability with elevated loads.

GLOBAL PRESENCE

CLARK products are
in operation all around
the world.

RELIABLE SPARE PARTS SERVICE

Over 120,000 items in our
Duisburg Spare Parts
Centre in Germany.

COMPREHENSIVE DEALER NETWORK

Over 550 sales & distribution partners in
more than 90 countries ensure a high level
of availability of our products and services.

EXCELLENT QUALITY

CLARK is the forerunner in high-
quality standards and innovative
product developments.
